PROFILE

My name is Sipho Nkebe, I am a web developer. I have a passion for creating and learning new things. My journey began in 2021 when I wrote my first piece of code in python. Since then, I have explored various technologies to deepen my skills and expand my knowledge in the field of web development. As a tech enthusiast, I am committed to staying up to date with the latest technologies and trends in the industry. I am excited to continue learning and growing as a web developer.

PRACTICAL EXPERIENCE

- **Sharenet Stocks Monitor**

This is a project that came with great challenges, tight a time frame, regardless, I delivered. Using Vuejs, TailwindCSS, MySQL, Node.js with Express.js

- **Bloomly Commerce**

This was my first attempt at creating fullstack applications. I used Vuejs, TailwindCSS, MySQL, Node.js with Express.js. I learned a lot working on this project.

- **Adora**

I worked on this project as a side project, to test my eye for colour and design. I used React.js with TailwindCSS.
